PROFESSIONAL SUMMARY

MERN Full Stack Developer with hands-on experience in building scalable and responsive web applications using MongoDB, Express.js, React.js, and Node.js. Strong foundation in frontend and backend development, RESTful API design, authentication, and database management. Passionate about writing clean code, solving problems, and continuously learning modern web technologies.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, React Router

Backend: Node.js, Express.js, RESTful API Design, JWT Authentication

Database: MongoDB (Mongoose), MySQL

Tools: Git, GitHub, Vite, VS Code, Postman, Netlify, Render, Railway

Concepts: CRUD, Authentication, State Management, API Integration, Responsive Design, Axios, Form Validation

PROJECTS

Hostel Management System (MERN Stack):

Tech Stack: MongoDB, Express.js, React.js, Node.js, Tailwind CSS, REST APIs, Netlify, Railway

- Developed a full-stack web application to manage hostel operations efficiently.
- Implemented user authentication and role-based access control for admins and users.
- Designed a responsive admin dashboard to manage rooms, student allocation, and records.
- Built RESTful APIs for room creation, allocation, and student management.
- Integrated MongoDB for real-time data storage and retrieval.
- Deployed frontend and backend separately for scalability and performance.

Smart Expense Tracker (Frontend project):

Tech Stack: React.js, JavaScript, Tailwind CSS, Netlify, Render

- Created a responsive web application to track daily income and expenses.
- Implemented features such as adding, deleting, and categorizing transactions.
- Enabled real-time balance calculation using state management, ensured mobile-friendly UI for better accessibility.
- Used state management to dynamically update UI based on user input.

Notes App (Frontend Project):

Tech Stack: React.js, JavaScript, Tailwind CSS, Netlify, Render

- Developed a notes management interface to create, edit, delete, and organize notes.
- Used browser local storage to persist data without backend support.
- Implemented dynamic rendering for real-time updates.
- Designed an intuitive and responsive user interface.

COURSE EXPERIENCE

Full Stack Developer (MERN) 2026 – Present

- Developed production-grade MERN applications covering full-stack development, RESTful API integration, JWT authentication, and cloud deployment.
- Managed state with maintained clean, version-controlled codebases on GitHub with modular component architecture.

CERTIFICATES

- Full Stack (MERN) Developer — GUVI | HCL | April 2026

IIT-M Pravartak Verified Full Stack Development Course with AI Tools

EDUCATION

Bachelor of Engineering — Computer Science and Engineering

Kingston Engineering College, Katpadi, Tamil Nadu | 2017 – 2021
