PROFESSIONAL SUMMARY

MERN Full Stack Developer with hands-on experience in building scalable and responsive web applications using MongoDB, Express.js, React.js, and Node.js. Strong foundation in frontend and backend development, RESTful API design, authentication, and database management. Passionate about writing clean code, solving problems, and continuously learning modern web technologies.

TECHNICAL SKILLS

Frontend Technologies:

HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS

Backend Technologies:

Node.js, Express.js, RESTful APIs, JWT Authentication

Databases:

MongoDB, MySQL

Programming Languages:

JavaScript, Python, Java

Tools & Platforms:

Git, GitHub, Postman, Visual Studio Code, Netlify, Render, Railway

CERTIFICATIONS

- IIT-M Pravartak Verified Full Stack Development Course with AI Tools
- Node.js Development
- React.js Development
- Database Management Systems
- Advanced JavaScript
- HTML & CSS
- Tailwind CSS
- JavaScript Basics

COURSE PROJECTS

Hostel Management System (MERN Stack)

Tech Stack: MongoDB, Express.js, React.js, Node.js

- Developed a full-stack web application to manage hostel operations efficiently.
- Implemented user authentication and role-based access control for admins and users.
- Designed a responsive admin dashboard to manage rooms, student allocation, and records.
- Built RESTful APIs for room creation, allocation, and student management.
- Integrated MongoDB for real-time data storage and retrieval.
- Deployed frontend and backend separately for scalability and performance.

Smart Expense Tracker

Tech Stack: React.js, JavaScript, CSS

- Created a responsive web application to track daily income and expenses.
- Implemented features such as adding, deleting, and categorizing transactions.
- Enabled real-time balance calculation using state management.
- Used state management to dynamically update UI based on user input.
- Ensured mobile-friendly UI for better accessibility.

Notes App (Frontend Project)

Tech Stack: HTML, CSS, JavaScript / React.js

- Developed a notes management interface to create, edit, delete, and organize notes.
- Used browser local storage to persist data without backend support.
- Implemented dynamic rendering for real-time updates.
- Designed an intuitive and responsive user interface.

FINAL YEAR PROJECT

- Completed a project with the topic of “Driver drowsiness” in our college at 6th Sem. - Driver drowsiness Detection-Designed a system for real-time detection of driver fatigue using image processing techniques.
- Completed a final year project with the topic of “Traffic flow predictions using CNN algorithm”. - Implemented a model to predict and optimize traffic flow using Convolutional neural networks.

INTERNSHIP EXPERIENCE

Software Development Intern

- Assisted in developing and maintaining web-based applications.
 - Wrote optimized, reusable code to improve development efficiency.
 - Performed debugging, testing, and version control using Git and GitHub.
 - Worked with Python and Java for developing and enhancing software modules.
-

EDUCATION

Bachelor of Engineering – Computer Science & Engineering

Kingston Engineering College, Anna University 2017 – 2021

Higher secondary School (HSC) from N.K.M.H.S.S, Vellore –2016-2017

SOFT SKILLS

- Problem Solving
 - Quick Learner
 - Team Collaboration
 - Communication Skills
 - Adaptability
-

Experiential Learning

- Participated in the DST & Texas Instruments Innovation Challenge Design Contest (2019), gaining hands-on experience in problem-solving and innovative design.
- Completed an online Java Programming course on SoloLearn, strengthening core programming skills.
- Undertook In-Plant Training at Fabsys Technologies Private Limited, acquiring practical industry exposure.
- Successfully completed the “Career Edge – Knockdown the Lockdown” online course offered by TCS iON, enhancing employability and soft skills.
